PROFFESIONAL SUMMARY

I have worked in field of product development, testing for 18 years in Cotton and Rice in research and till 2020. I have expertise knowledge in hybrid product evaluation trials on research station handling individually and multilocation trials on farmer's field. I am also apart of team supporting agronomic data by generating yield and other traits data from adaptive trial to support commercialization of new Cotton and hybrid Rice. Working experience on 1200 hac Mechanized farming for Cotton and wheat crop on large fields in Uzbekistan.

ACHI EVEMENTS

- ✓ As a Cotton Agronomist Successfully implemented all hybrid testing schemes in Maharashtra part of MP and Orissa.
- ✓ Active involvement and contribution in the commercialization of **First Class** and **Superb** hybrids which are been a huge success for the company's business growth in the market.
- ✓ Developed and managed independent cotton hybrid testing and development farm location for replicated test hybrid evaluation at Yavatmal, Vidarbha for rainfed condition.
- ✓ I had proposed 6129 hybrid rice suitable for closer planting 17 years back when the product was in product development testing. Now the same product is popular as **6129 Gold** in the market for closer planting from last 15 years.
- ✓ Worked in Odisha for Hybrid rice and cotton popularization.
- ✓ Successfully completed the IFC Biological project in cotton using Trichoderma, Bracon (wasp) releasing in fields and Bio sleep BT & BW for control of Heliothis armigera and Lacewings for control of aphids over 420 ha in Qarshi district of Uzbekistan.

WORKHI STORY

Organization: Absolute foods (ECSO Global Private Ltd.)

Designation: Manager – Cluster Agronomy Feb 2022 to current

- 1.Making contact with farmers and making clusters giving inputs and procurement of their produce.
- 2.Joint hands with Procurement team and helping them in buying produce from farmers.
- 3.Giving guidelines of work get in time done and input information to subordinating Agronomists.
- 4.Visting crops like Pomegranate, Sweetlime, Grapes, watermelon, Tomato, Cotton, Corn, Ginger and given guidelines and advice on pest and disease control.

Organization: Indorama Agro Uzbekistan

Designation: Agronomist November 2020 to November 2021

1. Monitoring Cotton and Wheat planting with planter, fertilizer application, spraying operations, sucking pest, harvesting with mechanized machines.
2. Handling 36 working staff under me for different activities on going during crop growth.
3. In charge of wheat grading and seed treatment on large scale in Uzbekistan, also in charge of cotton collection procurement at collection center on big scale from farmers.

Organization: Tierra Agrotech Pvt.Ltd.

Designation: Manager Technology Development (Testing) (Jan 2020 to July 2021)

1. Conducting H4 trials for Cotton, Corn & Tomato on farmer field and selection of promising hybrids suitable for this region.
2. Demonstration visits of tomato in Marathwada of hybrids before commercialization.

Organization: Bayer Bioscience Pvt. Ltd.

Designation: Agronomist (Cotton-B &TD) (2006 to 2019)

1. Execution of Replicated Research trials for Cotton in Vidarbha, Marathwada and Khandesh region of Maharashtra and part of MP region.
2. Precise scientific data collection and supporting breeder for selection of promising hybrids suitable for this region.
3. Showcasing performance of pipeline hybrids to internal customer (sales and marketing team) and providing support to sales and marketing team.
4. Liaisoning with State Agricultural Universities for BGII Cotton Hybrid Testing.
