Project under taken:-

Title: Rural Agricultural Work Experience(RAWE) in 2018(B.Sc.)

Description: I have under taken project for 80 days in the village shambunpally(v),Jammikunta(M)Karimnagar(D),Telangana(S).Ihavetaken thisproject under the guidance of a regional farmer. I have helped farmers by making them understand the advanced methods\technologies used in farming. During this project I have done several programmes like preparing field nursery, recording germination percentage, application of fertilizers, reducing effect of insects in early stage by applying natural methods like application of neem extract spray, mulching methods are also carried to reduce weeds.

Title: Industrial exposure training

Description: I have under taken project in industrial trial exposure training in KVK for 45 days in the village Baramati, Maharashtra. And the project was taken under the guidance of baramati agriculture college professor's. I have done several programs like milk processing , packing and cold storage of milk in milk center, as in food bravery center. And effectively visited the Baramati cattle feeds pvt ltd industry to learn what are the procedure takes place from production to packing. And professors helped to learn various projective skill's.

ASCI(Agriculture Skill Council of India)- One month gardening training at CISH (Central Institute of Subtropical Horticulture), Lucknow.
